

Ria Ann John

Service Designer • Experience Strategy • Journey Mapping
riaj084@gmail.com | (804) 874-2449 | New York City, NY | [linkedin.com/in/riaannjohn](https://www.linkedin.com/in/riaannjohn)

Service and experience designer with 5 years mapping end-to-end journeys across complex, multi-stakeholder systems in healthcare and medtech. Hands-on practitioner who facilitates discovery, synthesizes qualitative research into service blueprints and journey artifacts, and builds the templates and component libraries that let teams produce them repeatedly at volume. Comfortable in regulated environments; fluent in Figma, FigJam, and agentic AI tooling.

PROFESSIONAL EXPERIENCE

UX Designer | Jersey Technology Partners New Jersey, NJ • July 2025 – Present

- Lead design on the AI Automation team, **mapping current-state operational workflows** and redesigning them as AI-assisted service experiences across front-stage user touchpoints and back-stage system handoffs.
- Build reusable workflow and interface patterns so new automation use cases are produced from a shared component set rather than designed from scratch each time.
- Develop custom prompts and agent workflows using Claude and ChatGPT to accelerate research synthesis, artifact drafting, and documentation

Experience Designer | 10XBeta (venture design studio) New York City, NY • June 2024 – July 2025

- Core designer on a government-funded mobile medical van initiative to expand rural healthcare access, **mapped the end-to-end service across patient, clinician, driver, and administrator journeys, surfacing friction points and moments that matter across a distributed care delivery model.**
- Facilitated discovery sessions and workshops with 15+ stakeholders across clinical, operational, government, and engineering functions to identify the roles, systems, tools, and processes standing behind each stage of the journey.
- **Produced service blueprints and systems maps translating front-stage patient experience into back-stage staffing, equipment, and workflow requirements, maintained as the shared reference point for the cross-functional team.**
- Ran qualitative and quantitative research and usability testing with clinicians across three full-scale prototypes; synthesized findings into focused frameworks that shaped design strategy and streamlined development against the initial pilot.
- Built internal documentation, method toolkits, and onboarding materials that let client teams adopt the studio’s process independently, cutting onboarding time by ~25%.
- Created journey narratives, storyboards, and pitch artifacts using Figma, Adobe CS, and AI tools (Vizcom, Midjourney), reducing content production time by roughly half and accelerating stakeholder decision cycles.

Product & Experience Designer | Independent Consultant USA • September 2022 – May 2024

- Led UX and service strategy for early-stage startups and small businesses, competitor and journey audits, usability diagnosis, and content hierarchy aligned to business goals, contributing to measurable conversion lift.
- Designed and shipped end-to-end web experiences, owning the work from discovery through high-fidelity delivery and handoff.

Designer | Bearings World LLC Dubai, UAE • January 2021 – May 2022

- Built a modular, component-driven design system in Figma for a new e-commerce platform and established brand guidelines that scaled across web, social, and marketing surfaces — improving consistency, handoff efficiency, and digital engagement (+30%).

SELECTED PROJECTS & LEADERSHIP

Founder & Community Lead | Carrom Club NYC New York City, NY • August 2024 – Present • Designed and operated an end-to-end community experience celebrating South Asian culture — hosted 5+ events with South Asian-owned cafés across NYC, drawing 200+ attendees and growing the audience 40% through content and event design.

Workshop Lead & Facilitator | Women in Design, NYC Chapter New York City, NY • March 2024 • Designed and facilitated a co-creation career workshop for 20 early-career designers with two industry collaborators; 95% participant satisfaction and multiple ongoing mentor connections.

EDUCATION

Master of Fine Arts, Products of Design | School of Visual Arts, New York City 2022 – 2024
Bachelor of Fine Arts, Interior Design | Virginia Commonwealth University 2016 – 2020

SKILLS

Service Design: Journey Mapping, Service Blueprinting (front-stage / back-stage), Systems & Ecosystem Mapping, Discovery Facilitation, Co Creation Workshops, Stakeholder Alignment, Participatory Design, Design Sprints

Research: Qualitative Interviews, Contextual Inquiry, Observational Studies, Usability Testing, Mixed-Methods Synthesis

Production: Design Systems, Component & Template Libraries, Method Documentation & Governance, Design-to-Dev Handoff

Tools: Figma, FigJam, Miro, Sketch, Adobe Creative Suite, Jira, Confluence, Asana, Claude, ChatGPT, Vizcom, Midjourney
